

We have been working hard with our customers to improve satisfaction with our services and encouraging customers to have a greater say in how our services are shaped.

This helps us to achieve our mission of 'Improving lives in Oldham' and is also a key element of the Government's Social Housing Green Paper which aims to rebalance the relationship between customers and landlords.

Here's a look at how we are gathering feedback from you so far and how this has helped us improve our performance:

Introduced feedback surveys for all our customer service touchpoints e.g. repairs, contact centre and new tenancies.

In the last 12 months, over 40% (4,500) of our customers have responded to our text satisfaction surveys.

Used customer feedback to drive improvements to services and directly tackle issues and concerns customers raise.

Introduced dedicated teams across the business to focus on improving customer experience.

Developed a new complaints policy and process with improved insight to resolve complaints quickly and efficiently.
